

## Brevida™ Nasal Pillow CPAP Mask by Fisher & Paykel

Fisher and Paykel developed the **New Brevida Nasal Pillow CPAP Mask with Headgear** exclusively with the CPAP patient's comfort in mind. With features like easy adjustable headgear and the new innovative AirPillow™ seal for a gentle, effective seal. The Brevida Nasal Pillow Mask Seal is available in 2 sizes, (Extra Small-Small) and (Medium-Large).

The silicone on the Brevida pillow is softer and thinner than other nasal pillow masks, which makes wearing this CPAP Mask a very comfortable experience for the CPAP user. The cushion isn't worn as tight on the nostrils, therefore less pressure is required to seal, so the silicone doesn't need to be as durable.

### Features of the Brevida Nasal Pillow Mask
