

## DreamWear Full Face CPAP Mask by Philips Respironics

**The DreamWear Full Face CPAP Mask** is Respironic's new Under the Nose full face CPAP Mask. This mask comes with a medium frame, which fits most facial profiles and 4 different cushions sizes to choose from. Small, Medium, Large and Medium-Wide.

Philips Respironics new and exciting design is the soft silicone frame that directs airflow through two silicone tubes to join at the full face cushion. Because the frame is soft and flexible it adapts naturally to facial contours without pinching or pressure points, and will accommodate almost any sleeping position, giving you more freedom of movement, and a wide open field of view. A real plus among CPAP users.

Most Full Face CPAP Mask rest on the bridge of your nose, the DreamWear Full Face Mask fits just under the nose, providing a secure seal without all the annoying red marks on the top of your nose, discomfort or irritation in the nostrils.
