

WISP Nasal CPAP Mask

The WISP Nasal CPAP Mask by Philips Respironics is one of the sleep industry's unique creations

The wisp has features that make it a mask you will have to try to experience for yourself. When you think of nasal CPAP mask you probably think of the traditional triangle style cushion that covered your nose half way up the bridge of your nose and rested on your upper lip. The wisp is not that type of nasal mask.

Features and Benefits of The WISP Nasal CPAP Mask
